Offshore Wind Energy Development and Integration in California: Regulatory Regime, Permitting Finance, & More

1.19.22 | Webinar

Event Sponsor: Strafford Publications

Anne Mudge and Peter Weiner are presenting a CLE course that will provide renewable energy counsel with in-depth guidance on recent regulations, federal and state initiatives, and legal integration challenges for offshore wind development with a focus on California. They will be discussing recent federal and state regulatory developments and challenges, renewable energy project incentives and opportunities under the Biden administration, environmental considerations, best practices to minimize litigation and delay, and other key items.
