Public Agency Construction Risk: Building For The Future

9.10.09 | Conference

Venue: South Lake Tahoe, California

Jeffrey Masters will participate as a panelist in a session that will focus on providing an overview of key construction risk management issues to public agencies who are faced with managing complex construction projects.

The session will cover:

- Identifying Construction Risks
- Evaluating Key Construction Exposures
- Developing Effective Risk Management and Insurance Strategies
- Minimizing Administrative Workload
- Total Cost of Risk
