### Role of Green In Real Estate: Managing Risk and Finding Rewards In Green Building

11.5.09 | Conference  
Venue: San Francisco, CA

Jeffrey Master will moderate this panel of experts discussing green building and sustainable development. The session will assist in learning how to evaluate the value added aspects of green building, analyze emerging performance metrics, avoid unnecessary and costly pitfalls and ensure that a future project outpace the competition for years to come by effectively incorporating green characteristics without breaking the bank.
